

About us

Cardinal Metal Roofing Pty Ltd is a professional, hands-on, family run business based in North Queensland since 2004.

Cardinal Metal Roofing also provides all aspects of carpentry, supply & installation of metal roofing products and sheds.

Its directors, Matt & Steve, believe the achievement of customer satisfaction is an essential factor of every task the company undertakes. Their diverse expertise includes Industrial, Commercial and Residential projects, new and re-roofing projects, tender pricing for builders, direct service to the public, commercial & industrial sheds, shed kit, metal roofing, wall cladding, roof plumbing as well as carpentry work including timber and steel framing, roof trusses, flooring, walls, exterior cladding and general carpentry.

We operate in the Cairns Greater Region from Townsville to the tip of the Cape Work.
